Remote Content Management

With remote content management, you can easily update, schedule, and manage your digital signage content from any location. This feature enables you to control multiple displays or kiosks without needing to be on-site, making it simple to keep your messaging fresh and relevant. Whether it's updating promotions, displaying real-time information, or managing an entire network of displays, remote content management ensures seamless and efficient operation.

Durable Build

Crafted with high-quality materials, the durable build of this display is engineered to endure harsh outdoor conditions, from extreme temperatures to dust and moisture. Its robust construction protects against wear and tear, ensuring long-lasting performance and reliability. Whether installed in high-traffic areas or exposed to the elements, this display maintains its integrity, providing peace of mind and reduced maintenance costs. Ideal for both indoor and outdoor applications, the durable build ensures your digital signage investment stands the test of time.

Wi-Fi and 5G Capabilities

Equipped with both Wi-Fi and 5G capabilities, this display offers reliable, high-speed connectivity for uninterrupted performance. Whether you're managing content remotely, streaming live data, or enabling interactive features, the dual connectivity options ensure you stay connected without limitations. Wi-Fi provides easy integration into existing networks, while 5G delivers cutting-edge speeds and low latency for environments requiring fast, real-time updates. This flexibility ensures your digital signage is always online, delivering content and interactive experiences smoothly and efficiently.

VESA Standard Mount Included

This digital signage comes with a VESA standard mount, making installation straightforward and secure. The included mount ensures a stable and reliable attachment to any wall, allowing for easy setup and adjustment. This feature provides flexibility in positioning your display, ensuring it is securely fastened and perfectly aligned for optimal viewing and functionality

IP65 Rated

This display boasts an IP65 rating, ensuring exceptional durability and protection against dust, rain, and water exposure. Designed for outdoor environments, the IP65 rating guarantees that the device remains fully operational even in challenging weather conditions, making it ideal for public spaces, storefronts, and other exposed locations. With this level of protection, the display is safeguarded from the elements, ensuring consistent performance and reducing the need for maintenance, even in the toughest environments.

Horizontal and Vertical Orientation Support

This display offers flexible orientation support, allowing you to seamlessly switch between horizontal and vertical setups to suit your content and space requirements. Whether you're showcasing wide-format ads, dynamic menus, or tall digital posters, the ability to customize the display orientation enhances your presentation options. Ideal for retail, public spaces, and corporate environments, the horizontal and vertical orientation support ensures your content is always displayed in the most effective and eye-catching way.

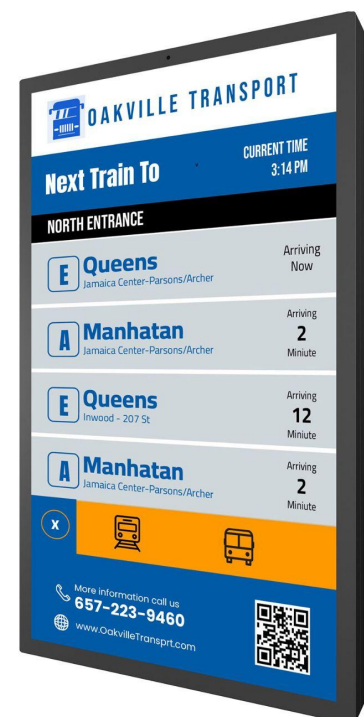

OU160-120

Android OS

With the Android OS at its core, this display offers a familiar and user-friendly interface, making it easy to manage and customize your digital content. The open platform allows for seamless integration with a wide range of apps, offering flexibility and adaptability for various applications. Whether you're running interactive displays, real-time updates, or customized software, Android OS ensures smooth operation and quick access to the tools you need. Its compatibility with countless Android-based apps enhances functionality and expands the possibilities of your digital signage.

Super Slim and Quiet Design

This digital signage features a remarkably slim profile that combines elegance with functionality, making it a visually appealing choice for any space. Its ultra-thin design ensures a modern, unobtrusive presence, while its silent operation guarantees minimal noise, creating a seamless and distraction-free experience. Ideal for environments where both aesthetics and a quiet atmosphere are crucial, this signage delivers on both fronts.
